IMAGES

All the images without captions in the book were obtained by generative AI tools (MidJourney 6), with prompting by Alessandra Frontini. Some stock images are also included (pages 2, 10, 22, 24). The right for these images was acquired by Sinergia s.r.l.

The cover image is a portrait created by MidJourney 6, an AI system that generates realistic images and art in response to a text description. The AI was asked to produce a digital artwork characterised by pixel and hologram and was prompted by Alessandra Frontini.
