Article Recommendations

The panels ESF/B and ESF/E reported in [Figure 4B](#) do not correspond to the analyzed samples. The correct [Figure 4B](#) is below.

(b)

Figure 4. (b) Optical microscopy images of HaCaT cells after 48 h of 220 s irradiation with the protection of water vapor treated ESF, ESF/B, and ESF/E patches. Negative and positive controls were also reported.
